

How to create a member account in G-Café Timer?

1. Go to **“Account”** then click  button.

2. The GUI for creating an account will appear then enter the information of the user. Leave everything if not needed except for **username** and **password**.
3. Change the type from **“Cash account”** to **“Time Account”** then click **“OK”** then click **“OK”** again.

Reminders:

1. Use only **“Time Account”** for stability.
2. Password can be change when the user login their account.

Done 😊
